112 YEARS OF RELIABLE SERVICE OPERATED BY ONE FAMILY

We would like to present our 1961 Spring and Fall Wholesale catalog and extend a cordial invitation to you, to visit our nursery and growing farms located at Tipp City, Ohio.

Our company has continuously served the nursery industry for 112 years. Peter Bohlender, a poor young immigrant from Bavaria with no formal education began growing fruit trees near Dayton, Ohio in 1849 while gold miners rushed West to California. Although he founded Spring Hill Nurseries with the smallest of beginnings, he soon became recognized as a leader in the field of Horticulture.

The fame of the nursery spread until today we have one of the largest, most modern combination retail, drive-in and mail order nurseries in the country with over 500 acres of growing farms and nearly three acres of floor space in our greenhouses, packing cellar, sales building, cold storages and office.

The men pictured at the left will serve you at Spring Hill Nurseries. Tom and Howard Kyle, life-long nurserymen and grandsons of Peter Bohlender, have assumed full ownership and management of the business for the past 24 years. Tom Kyle, Jr. and Jim Kyle are the fourth generation now active in the business. Our competent foremen have over a century of combined service with the company and each is well versed in his phase of the operation.

We think that you will find Spring Hill Nurseries a friendly, efficient and progressive company.

TERMS AND CONDITIONS OF SALE

GUARANTEE AND LIABILITY: All nursery stock in this list is guaranteed, graded to A. A. N. standards, true to name, clean thrifty plants which are state and federal inspected. Our Ohio Certificate of Inspection accompanies all shipments. All quotations are for immediate acceptance and are subject to being sold. We give no warrants expressed or implied as to description life, quality, productiveness of any nursery stock, seeds, or bulbs we sell. In no case will we be liable for a greater amount than the original purchase price. All contracts, orders and agreements are subject to adverse crop conditions, restricted transportation, labor shortage, material priorities and other emergencies beyond our control. Therefore, Spring Hill Nurseries cannot be responsible when any of the above conditions limit or make performance impossible. Absolutely no agents or salesmen.

CLAIMS: Claims for any cause must be made in writing within five days upon receipt of stock.

SHIPMENT: Travel is at the risk and expense of the purchaser. It is best to give specific shipping instructions. Otherwise we use our best judgment in shipping your order. Our responsibility ends upon the delivery of the nursery stock to the carrier. We cooperate to remedy loss between purchasers and carriers.

PRICES: Prices quoted in this list are f.o.b. the nursery at Tipp City, Ohio. Boxing and packaging are extra at the cost of the labor and material involved. Prices are based on the current market conditions and are subject to change without notice. They are wholesale prices and intended only for the legitimate trade. This price list cancels all previous lists. 25 or more of a kind at the 100 rate; 250 or more plants at the 1000 rate. For individual selection and field tagging, add 25% to list price.

TERMS: Payment terms are thirty days net when credit is established, otherwise cash. All C.O.D. orders require 25% deposit.

NOTICE: In the rush of the planting season it is difficult to serve customers on short notice. Therefore, we can give better service when you make an appointment in advance. Wholesale orders are taken at our office on Sundays; however, no wholesale orders dug, assembled, or loaded on Sundays except by previous arrangement.

MINIATURE ROSES

We believe this is the largest and most complete selection of Miniature Roses. All are perpetual flowering and have dainty buds, blooms and foliage resembling large hybrid tea roses differing only in their size. The small ten to fifteen inch plants are as hardy outdoors as other roses and require the same care. We sell own root, branched plants that are well established in 2¼ inch rose pots. Most varieties are available for immediate shipment with pot balls individually wrapped in aluminum foil. (*) Starred varieties are recommended for forcing. For less than 10 of a kind, add 20% to the ten rate, 25 or more of a kind at 100 rate, 250 or more of a kind at 1,000 rate.

SPRING HILL'S NEW 1961 INTRODUCTION

FAIRYLAND—The profusion of blooms and perpetual flowering habit is remarkable. Foliage, hardiness and growing characteristics are excellent. Introduced because it is far better than any miniature we have grown. A true miniature with exquisite buds that open into lovely royal rose blooms about the size of a dime with 80 to 85 petals, many more than other varieties.

\$1.00 each; 5 for \$4.50; 10 for \$7.95; 100 for \$75.00.

LAGERSTROEMIA Indica Crape Myrtle			
Crape Myrtle is one of the most wonderful summer blooming shrubs of the South. Attractive plants with glossy foliage and masses of crepe-like flowers July, August, and September. North of Rishmond, Va., the plants need winter protection. They bloom on new growth, so even if plants freeze to ground in Ohio they grow 3 to 4 ft. tall the next summer and produce an abundance of blooms. We sell hardiest strains or varieties available, sold by color.

CHRYSANTHEMUMS

The hardy, well-established pot plants we offer are selected from our large field-grown chrysanthemums when in full bloom. We select only vigorous, strong rooted, disease-free mother plants and propagate by stolon and cuttings. The cuttings are grown in our 18,000 square feet of modern greenhouse range under artificial lights, in sterilized soil, and are sprayed several times each week. These modern cultural practices insure optimum growth and quality.

The following variety classifications are available: ENGLISH—large flowering varieties with 6 to 8 inch blooms when disbudded. DECORATIVE—Select group of the better hardy garden varieties. POMPON or BUTTON—Small, compact, perfectly formed blooms clustered on strong stems. SPIDER—Long thread-like quilled petals usually with fish-hook or spoon-like tips. CUSHION—Naturally grow into dense, low, round, mound-shaped plants smothered with blooms. SPOON—Large blooms, with long tubular petals and spoon-like tips. RAYONNANTE—Long, cord-like petals without spoon or fish-hook tips. GREENHOUSE—Extra large flowering incurved florist type blooms when disbudded. DAISY—Flowers have flat ray petals and open single centers. UNIVERSITY—Introductions by Dr. Longley and Mr. Viehmeyer. CACTUS—Flat double blooms with long-narrow needle-like petals. AAMS—All America Mum Selections with patent rights reserved.

(*) Starred varieties are grown outdoors under glass in cold frames and are not usually ready until late April. (D) is abbreviation for double; (SD) indicates semi-double, and (S) indicates single flowering types. (EARLY) varieties bloom between August and Mid-September; (MID) between Mid-September and Mid-October, and (LATE) varieties bloom after Mid-October until frost. (LOW) varieties are 15 to 18 inches high; (MED.) plants are 18 to 26 inches high, and (TALL) indicates plants 26 inches and up.

ASTERS Michaelmas Daisies—Valuable hardy plants for cutting and garden. The dwarf varieties grow compact and mound-like, seldom exceed 1 ft. in height. They are hidden by hundreds of blooms during autumn flowering season. The taller Asters are greatly improved and add beauty to the fall garden, are fine for floral arrangements.

Aerial view of Spring Hill Nurseries

The Greenhouses, Packing, Sales, Storage and Office Buildings pictured above total nearly three acres of floor space. Three modern refrigerated storages with a combined capacity of 89,280 cubic feet provide storage for our dormant nursery stock. 19,200 square feet of greenhouse range and 75,000 square feet of lath house is devoted to the propagation and production of plants. Over 500 acres of growing farms in the rich Miami Valley are producing one of the widest assortments of nursery stock in the Midwest.

We extend a cordial invitation to you to visit our nursery and growing farms at Tipp City, Ohio. We are located six miles north of the Dayton Municipal Airport, just one-half mile off of Highway U. S. 25. Fly to the Dayton airport and phone North 7-2211 and we will be happy to provide transportation to the nursery.

Miniature Rose Color Special

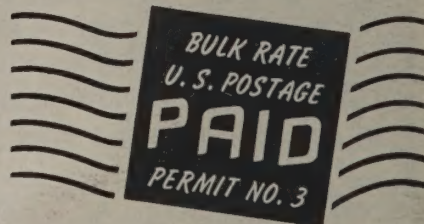

Now you can buy 50 colorful Miniature Roses in an attractive shipping and display container for immediate retail sales. Spring Hill selects thrifty pot plants from the varieties listed on pages 1 and 2 and offers them by color at this low price in order to keep a balanced inventory. Your choice of RED, WHITE, PINK, YELLOW and BI-COLOR. Individual 2¼ inch pot balls are wrapped in colored aluminum foil for easy identification. No less than 10 Miniatures of each color sold and if you do not specify a single color, we will ship a well balanced assortment. Some colors are available only in limited quantities so order early for the complete assortment.
